

USAID MEDICINES, TECHNOLOGIES, AND PHARMACEUTICAL SERVICES (MTAPS) PROGRAM

Improved Access. Improved Services. Better Health Outcomes.

COVID-19 MONTHLY REPORT FEBRUARY 2021

USAID
FROM THE AMERICAN PEOPLE

COVID-19 MONTHLY REPORT

FEBRUARY 2021

DISCLAIMER: This document is made possible by the generous support of the American people through the US Agency for International Development (USAID) Contract No.: 7200AA18C00074. The contents are the responsibility of Management Sciences for Health and do not necessarily reflect the views of USAID or the United States Government.

PROJECT OVERVIEW

Program Name:		USAID Medicines, Technologies, and Pharmaceutical Services (MTaPS) Program
Reporting Period:		February 1-28, 2021
Activity Start Date and End Date:		September 20, 2018 – September 19, 2023
Name of Prime Implementing Partner:		Management Sciences for Health
Contract Number:		7200AA18C00074
MTaPS Partners:	Core Partners:	Boston University, FHI360, Overseas Strategic Consulting, Results for Development, International Law Institute-Africa Centre for Legal Excellence, NEPAD
	Global Expert Partners:	Brandeis University, Celsian Consulting, Deloitte USA, Duke-National University of Singapore, El Instituto de Evaluacion Technologica en Salud, IC Consultants, MedSource, IQVIA, University of Washington
	Capacity Resource Partners:	African Health Economics and Policy Association, Ecumenical Pharmaceutical Network, U3 SystemsWork, University of Ibadan, African Collaborating Centre for Pharmacovigilance and Surveillance, Kilimanjaro School of Pharmacy, Muhimbili University, Pharmaceutical Systems Africa
	Collaborators:	International Pharmaceutical Federation, Howard University, University of Notre Dame, WHO, World Bank

ACRONYMS AND ABBREVIATIONS

ARI	acute respiratory infection
COVID-19	coronavirus disease 2019
eSC	emergency supply chain
HCW	health care workers
HCWM	health care waste management
IPC	infection prevention and control
MOH	Ministry of Health
MTaPS	Medicines Technologies and Pharmaceutical Services Program
PPE	personal protective equipment
SARI	severe acute respiratory infection
SOP	standard operating procedure
TA	technical assistance
ToT	training of trainers
TWG	technical working group
WHO	World Health Organization

COVID-19 INDICATORS

Table 1. Indicators across all MTaPS-supported countries

#	Indicator	Total (as of February 28, 2021)
1	# of MTaPS-supported health facilities whose staff received COVID-19-related IPC training:*	3,087
1.a	# of facilities trained in IPC for COVID-19	2,595
1.b	# of facilities trained in emergency supply chain management	633
1.c	# of facilities trained in health care waste management (HCWM)	2,276
2	# of health workers who received COVID-19-related training	40,733
2.a	female	23,042
2.b	male	17,470
2.c	sex unknown	221
3	% of MTaPS-supported facilities in compliance with IPC COVID-19 guidelines/SOPs	46% (701/1,533)
4	% of MTaPS-supported facilities that report stock data for IPC commodities with required frequency	97% (721/742)

* Because some health facilities received training in more than one technical area, indicator 1 and sub-indicators 1a, 1b, and 1c are counted separately to prevent double counting.

Progress on Activities

Country	Action Area* (Technical area)	Activity Description	Deliverables	February
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Adapt guidance/ SOPs along existing WHO guidance for COVID-19 to	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Adapt guidance/ SOPs along existing WHO guidance for COVID-19 to	• Adapted training materials	This activity is completed.
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Provide training using existing training packages for COVID-19	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Support to regular meetings with the national coordination mechanisms	• After-action report	The activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Rapid emergency supply chain stakeholders mapping	• Rapid response strategy/plan	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Rapid emergency supply chain preparedness assessment	• Emergency response capacity assessment report with technical recommendations	This activity is completed.
Bangladesh	IPC facility access guidance	• Adapt guidance/ SOPs along existing WHO guidance for COVID-19 to	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	IPC facility access guidance	• Conduct simulation exercise (table top, drill, functional or full scale)	• Simulation exercise report	This activity is completed.

		full-scale)		
Bangladesh	IPC facility access guidance	• Provide training using existing training packages for COVID-19	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Apply/adapt simple operating procedures and tools for the management of ordering, issuing, distributing, receiving, rational utilization	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Conduct training on SOPs	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	MTaPS conducted four trainings on the eLMIS and the quantification tool for COVID-19 commodities, with 74 participants (10 female and 64 male) from 22 districts hospitals. The participants were Resident Medical Officer/Emergency Medical Officer/Medical Officer DRS, Storekeeper and Statistician. MIS officers were observers. Thirty-one facilities have completed the transition to the new COVID-19 eLMIS and the rest will do so in the near future.
Bangladesh	Emergency Supply of IPC Commodities	• Conduct supportive supervision to ensuring adherence	• Compliance tracking and reporting system	The activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Implement simple IPC and PPE commodity tracking system	• Compliance tracking and reporting system	The activity is completed. Currently, 98% (650 of 659) of facilities are reporting COVID-19 commodity stock status through the SCM electronic reporting system as of February 28, 2021. Reporting timeliness is 53%. Stock status of other commodities could be found here: https://scmpbd.org/index.php/covid-19-dashboard
Bangladesh	IPC Program Management (national/facility/community)	• Conduct rapid assessment of IPC for COVID-19 capacity (national/county levels)	• Emergency response capacity assessment report with technical recommendations	The activity is completed.
Bangladesh	IPC Program	• Provide training	• Number of people	The activity is completed.

Bangladesh	IPC Program Management (national/facility/community)	IPC training using existing training package on triage for Covid-19	IPC training for people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is completed.
Bangladesh	IPC Program Management (national/facility/community)	• Strengthen facility COVID-19 IPC response coordination mechanism/task force	• Coordination/task force mechanism	MTaPS is continuously coordinating COVID-19 IPC assistance with the Development Partners (DP) consortium and government counterparts through active participation in different pillar meetings and coordination meetings. This activity is now completed
Bangladesh	Triage for SARI/ARI patients	• Assess and monitor compliance	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	A consultant is working on program evaluation of COVID-19 responses in Bangladesh by MTaPS. Study tools have been prepared, data collection has started.
Bangladesh	Preparedness for the possibility of mass fatalities	• Provide training using existing training packages for COVID-19	• Adapted training materials	This activity is now completed.
Bangladesh	Emergency Supply of IPC Commodities	• Define list of supplies and specification	• After-action report	An after-action report has been finalized, making this activity complete.
Bangladesh	Emergency Supply of IPC Commodities	• Support/facilitate quantification exercises	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	MTaPS conducted four trainings on the eLMIS and the quantification tool for COVID-19 commodities, with 74 participants (10 female and 64 male) from 22 districts hospitals. The participants were Resident Medical Officer/Emergency Medical Officer/Medical Officer DRS, Storekeeper and Statistician. MIS officers were observers. Thirty-one facilities have completed the transition to the new COVID-19 eLMIS and the rest will do so in the near future.
Bangladesh	Emergency Supply of IPC Commodities	• Design agile distribution and inventory holding policy	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	Sudden influx of patients / Surge capacity	• Adapt guidance/SOPs along existing WHO guidance for COVID-19 to	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC	This activity is completed.

		COVID-19 to	element (incl IPC commodities lists)	
Bangladesh	Sudden influx of patients / Surge capacity	• Analyze systems and systemic dependencies	• After-action report	This activity is completed.

Technical Area ▲

Application of COVID-19 Precautions by HCW, patients

Emergency Supply of IPC Commodities

IPC Program Management (national/facility/community)

IPC facility access guidance

Source control (isolation)

Sudden influx of patients / Surge capacity

Triage for SARI/ARI patients

1 - 7 / 7

Progress on Activities

Country	Action Area* (Technical area)	Activity Description	Deliverables	February
Jordan	IPC Program Management (national/facility/community)	• Conduct rapid assessment of IPC for COVID-19 capacity (national/county levels)	• Emergency response capacity assessment report with technical recommendations	This activity is complete.
Jordan	IPC Program Management (national/facility/community)	• Adapt/draft regulatory support documentation for the implementation of COVID-19 response based on WHO COVID-19 guidance	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is complete.
Jordan	IPC Program Management (national/facility/community)	• Strengthen facility COVID-19 IPC response coordination mechanism/task force	• Coordination/task force mechanism	This activity is complete under this work plan and will continue under project year 3 work plan activities.
Jordan	Application of COVID-19 Precautions by HCW, patients	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is complete.
Jordan	Application of COVID-19 Precautions by HCW, patients	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	This activity is complete.
Jordan	Source control (isolation)	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is complete.
Jordan	Source control (isolation)	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	This activity is complete.

	(isolation)	implementation	IPC element (supervision, IPC performance, supplies, etc.)	
Jordan	Source control (isolation)	• Assess and monitor compliance	• Compliance tracking and reporting system	This activity is complete.
Jordan	IPC facility access guidance	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is complete.
Jordan	IPC facility access guidance	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	This activity is complete.
Jordan	Triage for SARI/ARI patients	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is complete.
Jordan	Triage for SARI/ARI patients	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	This activity is complete.
Jordan	Sudden influx of patients / Surge capacity	• Develop plans and strategies following existing guidelines	• Surge capacity plan/MoU/MoA for resource-sharing	This activity is complete.
Jordan	Sudden influx of patients / Surge capacity	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is complete.
Jordan	Emergency Supply of IPC Commodities	• Support/facilitate quantification exercises	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	No quantification activity was conducted this month. However, the stock situation report from hospitals was shared and discussed with PSD to generate purchase orders for PPE commodities with low stock status.
Jordan	Emergency Supply of IPC Commodities	• Identify quick supply chain response time for	• Guideline/SOP/checklis t . Job aid for key IPC	The emergency supply chain manual is being reviewed for the newly established field hospitals

	Commodities	response time for immediate availability of COVID-19 commodities at treatment sites	tools and for key element (incl IPC commodities lists)	hospitals.
Jordan	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> • Implement simple IPC and PPE commodity tracking system 	<ul style="list-style-type: none"> • Compliance tracking and reporting system 	<p>In this month, hospitals submitted thier bi-weekly PPE stock reporting and requisition form directly to the PSM Directorate. Reports were aggregated and analyzed to make decision making. The status of all critical PPE commodities are in good status. MTaPS shared the analyzed report and discussed action points to be taken with PSD. Also in this month, data aggregation and analysis training was conducted for five PSD officers. The objectives of the training was three-fold; for participants at PSD: 1) to aggregate and consolidate reports and requisitions coming from hospitals; 2) to conduct analysis and produce visual charts and graphs; and 3) to use information for decision making. This initiative is expected to support smooth tranistion of MTaPS' activity to PSD.</p>

MTAPS/JORDAN COVID-19 INDICATORS

Table 10. Jordan CV I: # and % MTaPS-supported health facilities whose staff received COVID-19-related IPC training, August 2020-February 2021										
Indicator and Disaggregation		Target	Aug.	Sep.	Oct.	Nov.	Dec.	Jan.	Feb.	Cum.
# health facilities per month		36	3	13	8	5	7	1	0	37
Cumulative # health facilities			3	16	24	29	36	37	37	37
% (Cum./target)			8%	44%	67%	81%	100%	103%	103%	103%
Technical area	eSC		0	12	2	0	3	0	0	17
	HCWM		3	13	8	5	7	1	0	37
	IPC		3	13	8	5	7	1	0	37
