

# USAID MEDICINES, TECHNOLOGIES, AND PHARMACEUTICAL SERVICES (MTAPS) PROGRAM

---

Improved Access. Improved Services. Better Health Outcomes.

## COVID-19 MONTHLY REPORT JANUARY 2021

# COVID-19 MONTHLY REPORT JANUARY 2021

DISCLAIMER: This document is made possible by the generous support of the American people through the US Agency for International Development (USAID) Contract No.: 7200AA18C00074. The contents are the responsibility of Management Sciences for Health and do not necessarily reflect the views of USAID or the United States Government.

## PROJECT OVERVIEW

Program Name:	USAID Medicines, Technologies, and Pharmaceutical Services (MTaPS) Program	
Reporting Period:	January 1-31, 2021	
Activity Start Date and End Date:	September 20, 2018 – September 19, 2023	
Name of Prime Implementing Partner:	Management Sciences for Health	
Contract Number:	7200AA18C00074	
MTaPS Partners:	Core Partners:	Boston University, FHI360, Overseas Strategic Consulting, Results for Development, International Law Institute-Africa Centre for Legal Excellence, NEPAD
	Global Expert Partners:	Brandeis University, Celsian Consulting, Deloitte USA, Duke-National University of Singapore, El Instituto de Evaluacion Technologica en Salud, IC Consultants, MedSource, IQVIA, University of Washington
	Capacity Resource Partners:	African Health Economics and Policy Association, Ecumenical Pharmaceutical Network, U3 SystemsWork, University of Ibadan, African Collaborating Centre for Pharmacovigilance and Surveillance, Kilimanjaro School of Pharmacy, Muhimbili University, Pharmaceutical Systems Africa
	Collaborators:	International Pharmaceutical Federation, Howard University, University of Notre Dame, WHO, World Bank

## ACRONYMS AND ABBREVIATIONS

ARI	acute respiratory infection
COVID-19	coronavirus disease 2019
eSC	emergency supply chain
HCW	health care workers
HCWM	health care waste management
IPC	infection prevention and control
MOH	Ministry of Health
MTaPS	Medicines Technologies and Pharmaceutical Services Program
PPE	personal protective equipment
SARI	severe acute respiratory infection
SOP	standard operating procedure
TA	technical assistance
ToT	training of trainers
TWG	technical working group
WHO	World Health Organization

## COVID-19 INDICATORS

### Indicators across all MTaPS-supported countries

#	Indicator	Total (as of January 31, 2021)
<b>1</b>	# of MTaPS-supported health facilities whose staff received COVID-19-related IPC training:*	3,087
<b>1.a</b>	# of facilities trained in IPC for COVID-19	2,595
<b>1.b</b>	# of facilities trained in emergency supply chain management	633
<b>1.c</b>	# of facilities trained in health care waste management (HCWM)	2,276
<b>2</b>	# of health workers who received COVID-19-related training	40,654
<b>2.a</b>	female	23,032
<b>2.b</b>	male	17,406
<b>2.c</b>	sex unknown	216
<b>3</b>	% of MTaPS-supported facilities in compliance with IPC COVID-19 guidelines/SOPs	46% (701/1,533)
<b>4</b>	% of MTaPS-supported facilities that report stock data for IPC commodities with required frequency	96% (720/740)

\* Because some health facilities received training in more than one technical area, indicator 1 and sub-indicators 1a, 1b, and 1c are counted separately to prevent double counting.

## Progress on Activities

Country	Action Area* (Technical area)	Activity Description	Deliverables	January
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Adapt guidance/SOPs along existing WHO guidance for COVID-19 to	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Adapt guidance/SOPs along existing WHO guidance for COVID-19 to	• Adapted training materials	This activity is completed.
Bangladesh	IPC guidance to patients, family members, caregivers and visitors	• Provide training using existing training packages for COVID-19	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Support to regular meetings with the national coordination mechanisms	• After-action report	An MTaPS representative attended a coordination meeting organized by the World Food Program (WFP), the Co-chair of the Procurement & Logistics Pillar. MTaPS shared updates on the training for the Directorate General of Health Services (DGHS) on the COVID-19 electronic logistics management information system (eLMIS) and quantification tool. MTaPS will continue to attend coordination meetings to apprise attendees on MTaPS's activities related to Bangladesh's COVID-19 response.
Bangladesh	Emergency Supply of IPC Commodities	• Rapid emergency supply chain stakeholders mapping	• Rapid response strategy/plan	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Rapid emergency supply chain preparedness assessment	• Emergency response capacity assessment report with technical recommendations	This activity is completed.
Bangladesh	IPC facility	• Adapt guidance/SOPs along existing WHO guidance for COVID-19 to	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.

	access guidance	SOPs along existing WHO guidance for COVID-19 to	Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	
Bangladesh	IPC facility access guidance	• Conduct simulation exercise (table top, drill, functional or full-scale)	• Simulation exercise report	This activity is completed.
Bangladesh	IPC facility access guidance	• Provide training using existing training packages for COVID-19	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Apply/adapt simple operating procedures and tools for the management of ordering, issuing, distributing, receiving, rational utilization	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Conduct training on SOPs	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	MTaPS continued the training session on the eLMIS and quantification tool for COVID-19 commodities with eight more batches for 161 participants (21 female and 140 male) from 30 districts hospitals and 18 civil surgeon offices and the DGHS MIS unit, including the Resident Medical Officer/Emergency Medical Officer, Storekeeper, and Statistician. Use of the system should improve the day-to-day logistics performance at these hospitals. These health facilities will practice on the training demo site for the next three to four weeks before they start to use the actual system.
Bangladesh	Emergency Supply of IPC Commodities	• Conduct supportive supervision to ensuring adherence	• Compliance tracking and reporting system	The activity is completed.
Bangladesh	Emergency Supply of IPC Commodities	• Implement simple IPC and PPE commodity tracking system	• Compliance tracking and reporting system	The activity is completed. Currently, 98% (649 of 656) of facilities are reporting COVID-19 commodity stock status through the SCM electronic reporting system as of January 31, 2021. Reporting timeliness is 69%. Stock status of other commodities could be found here: <a href="https://scmpbd.org/index.php/covid-19-dashboard">https://scmpbd.org/index.php/covid-19-dashboard</a>

Bangladesh	IPC Program Management (national/facility/community)	<ul style="list-style-type: none"> <li>• Conduct rapid assessment of IPC for COVID-19 capacity (national/county levels)</li> </ul>	<ul style="list-style-type: none"> <li>• Emergency response capacity assessment report with technical recommendations</li> </ul>	The activity is completed.
Bangladesh	IPC Program Management (national/facility/community)	<ul style="list-style-type: none"> <li>• Provide training using existing training package on triage for Covid-19</li> </ul>	<ul style="list-style-type: none"> <li>• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community</li> </ul>	The activity is completed.
Bangladesh	IPC Program Management (national/facility/community)	<ul style="list-style-type: none"> <li>• Strengthen facility COVID-19 IPC response coordination mechanism/task force</li> </ul>	<ul style="list-style-type: none"> <li>• Coordination/task force mechanism</li> </ul>	MTaPS is continuously coordinating COVID-19 IPC assistance with the Development Partners (DP) consortium and government counterparts through active participation in different pillar meetings and coordination meetings.
Bangladesh	Triage for SARI/ARI patients	<ul style="list-style-type: none"> <li>• Assess and monitor compliance</li> </ul>	<ul style="list-style-type: none"> <li>• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)</li> </ul>	Data entry and analysis to assess and monitor hospital compliance with Covid-19 IPC requirements have been completed. A draft report is being prepared.
Bangladesh	Preparedness for the possibility of mass fatalities	<ul style="list-style-type: none"> <li>• Provide training using existing training packages for COVID-19</li> </ul>	<ul style="list-style-type: none"> <li>• Adapted training materials</li> </ul>	This activity is now completed.
Bangladesh	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Define list of supplies and specification</li> </ul>	<ul style="list-style-type: none"> <li>• After-action report</li> </ul>	No new items were included this month.
Bangladesh	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Support/facilitate quantification exercises</li> </ul>	<ul style="list-style-type: none"> <li>• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)</li> </ul>	Please refer to the information above in P14
Bangladesh	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Design agile distribution and inventory holding policy</li> </ul>	<ul style="list-style-type: none"> <li>• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)</li> </ul>	This activity is completed.
Bangladesh	Sudden influx of patients / Surge capacity	<ul style="list-style-type: none"> <li>• Adapt guidance/SOPs along existing WHO guidance for</li> </ul>	<ul style="list-style-type: none"> <li>• Guideline/SOP/checklist Job aid for key IPC</li> </ul>	This activity is completed.

	Surge capacity	WHO guidance for COVID-19 to	t Job aid for key IPC element (incl IPC commodities lists)	
Bangladesh	Sudden influx of patients / Surge capacity	<ul style="list-style-type: none"><li>Analyze systems and systemic dependencies</li></ul>	<ul style="list-style-type: none"><li>After-action report</li></ul>	This activity is completed.

Bangladesh

Burkina Faso

Cameroon

Cote d'Ivoire

Ethiopia

**Jordan**

Kenya

Mali

1 - 13 / 13

### Month: January (1) ▼

● NO ISSUES OR ON TRA... ● COMPLETED

### Technical Area ▲

Application of COVID-19 Precautions by HCW, patients

Emergency Supply of IPC Commodities

IPC Program Management (national/facility/community)

IPC facility access guidance

Source control (isolation)

Sudden influx of patients / Surge capacity

Triage for SARI/ARI patients

1 - 7 / 7

## Progress on Activities

Country	Action Area* (Technical area)	Activity Description	Deliverables	January
Jordan	IPC Program Management (national/facility/community)	• Conduct rapid assessment of IPC for COVID-19 capacity (national/county levels)	• Emergency response capacity assessment report with technical recommendations	This activity is complete.
Jordan	IPC Program Management (national/facility/community)	• Adapt/draft regulatory support documentation for the implementation of COVID-19 response based on WHO COVID-19 guidance	• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)	This activity is complete.
Jordan	IPC Program Management (national/facility/community)	• Strengthen facility COVID-19 IPC response coordination mechanism/task force	• Coordination/task force mechanism	<p>MTaPS continues to coordinate with the IPC Department and provide the MOH focal point with the necessary details about MTAAPS' activities on a weekly basis.</p> <p>MTaPS continues to coordinate with other USAID implementing partners as members of AL-Basheer Hospital COVID19 task force. As part of this coordination, MTAAPS was requested to provide IPC training for the newly established field hospitals in coordination with the Nursing Directorate MOH and LHSS Project .</p>
Jordan	Application of COVID-19 Precautions by HCW, patients	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	<p>MTaPS conducted IPC training in the following hospitals, with a total of 138 HCWs (51% females) trained:</p> <p>AL-Basheer Hospital Prince Hashim Bin AL-Hussien Hospital</p>
Jordan	Application of COVID-19 Precautions by HCW, patients	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	MTaPS is following up with previously visited hospitals, providing technical support and advice to further bolster hospital preparedness.
Jordan	Source control	Just-in-time IPC	Number of people	MTaPS conducted IPC training in the following

Jordan	Source control (isolation)	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	MTaPS conducted IPC training in the following hospitals, with a total of 138 HCWs (51% females) trained:  AL-Basheer Hospital Prince Hashim Bin AL-Hussien Hospital
Jordan	Source control (isolation)	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	MTaPS is following up with previously visited hospitals, providing technical support and advice to further bolster hospital preparedness.
Jordan	Source control (isolation)	• Assess and monitor compliance	• Compliance tracking and reporting system	MTaPS is following up with previously visited hospitals, providing technical support and advice to further bolster hospital preparedness.
Jordan	IPC facility access guidance	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	MTaPS conducted IPC training in the following hospitals, with a total of 138 HCWs (51% females) trained:  AL-Basheer Hospital Prince Hashim Bin AL-Hussien Hospital
Jordan	IPC facility access guidance	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	MTaPS is following up with previously visited hospitals, providing technical support and advice to further bolster hospital preparedness.
Jordan	Triage for SARI/ARI patients	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of facility/community	MTaPS conducted IPC training in the following hospitals, with a total of 138 HCWs (51% females) trained:  AL-Basheer Hospital Prince Hashim Bin AL-Hussien Hospital
Jordan	Triage for SARI/ARI patients	• Oversee the implementation	• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)	MTaPS is following up with previously visited hospitals, providing technical support and advice to further bolster hospital preparedness.
Jordan	Sudden influx of patients / Surge capacity	• Develop plans and strategies following existing guidelines	• Surge capacity plan/MoU/MoA for resource-sharing	This activity is complete.
Jordan	Sudden influx of patients / Surge capacity	• Just-in-time IPC training	• Number of people trained in IPC for COVID-19 by gender/position/type of	MTaPS conducted IPC training in the following hospitals, with a total of 138 HCWs (51% females) trained:

			facility/community	AL-Basheer Hospital Prince Hashim Bin AL-Hussien Hospital
Jordan	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Support/facilitate quantification exercises</li> </ul>	<ul style="list-style-type: none"> <li>• Status reports by key IPC element (supervision, IPC performance, supplies, etc.)</li> </ul>	No quantification activity was conducted this month. However, additional resources (documents) were shared with Al-Bashir Hospital following the quantification training conducted last month.
Jordan	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Identify quick supply chain response time for immediate availability of COVID-19 commodities at treatment sites</li> </ul>	<ul style="list-style-type: none"> <li>• Guideline/SOP/checklist Job aid for key IPC element (incl IPC commodities lists)</li> </ul>	To finalize the COVID-19 emergency supply chain plan MTaPS is discussing with MOH to get clarity on how the newly established field hospitals will receive COVID-19 commodities and to include key interventions for effective supply chain at those field hospitals. In addition, it was recommended to revisit the strategy in light of new evidence and evolving situation how existing hospitals will manage COVID-19 cases, if reporting and requisition system will continue or shift to the newly established field hospitals.
Jordan	Emergency Supply of IPC Commodities	<ul style="list-style-type: none"> <li>• Implement simple IPC and PPE commodity tracking system</li> </ul>	<ul style="list-style-type: none"> <li>• Compliance tracking and reporting system</li> </ul>	MTaPS continued supporting 12 hospitals on continuous reporting and requisition of PPE. This month nine hospitals reported and stock status data were analyzed and discussed with PSD for any action to be taken. Almost all PPE commodities are in good stock status situation.

## MTAPS/JORDAN COVID-19 INDICATORS

**Table 7. Jordan CV 1: # and % MTaPS-supported health facilities whose staff received COVID-19-related IPC training, August 2020-January 2021**
